Design leader with 12+ years of experience building and scaling design teams across India and Indonesia. Led 0→1 product launches and multi-market expansions, experienced scaling design teams from 1-20+ designers, directed development and implementation of design systems supporting multiple web and mobile products. Experienced in org design, governance, executive alignment and team building.

Currently exploring AI by shipping small web applications, teaching students how to use AI and hosting designdemonights.com

Leadership & Organizational Impact

- Experience building and scaling design teams across Practo, Gojek, and Jiva (from leading the Merchant design function in a 100+ designer org like Gojek to building the product design team at Jiva.ag)
- Defined performance ladders for Product Design and UX Writing; authored annual reviews, growth plans, and wrote recommendations for promotions.
- Instituted weekly design critiques, biweekly cross-functional product reviews, project management processes and design documentation systems to improve alignment and decision velocity
- Led end-to-end hiring across multiple roles; conducted campus hiring (NID Ahmedabad, IIT Guwahati) and served as cross-functional hiring panelist for Product Management
- Led post-merger integration of the Midtrans, MokaPOS design teams at Gojek

WORK EXPERIENCE

Jiva AG

Senior Design Manager

Jan 2022 - Sept 2025

- Led product design function and was responsible for the design of our 5 mobile apps and various internal tools serving 100k+ registered farmers, 5,400 collectors, and 4,900 retailers.
- Co-lead the conception and execution of Jiva Lite, a WhatsApp-based assistant enabling farmers to sell corn at better prices. Designed conversational flows, A/B tested, designed advertising assets and did whatever was required to drive real-world adoption with a scrappy team.
- Led design on a chatbot interface in the Farmer App called Crop Doctor that helped farmers use AI to diagnose diseases their corn crops were facing.
- Led the design of Jiva's Akar design system, where we built and implemented a multi-platform system grounded in design tokens. This system was used by our collector, retailer and farmer mobile apps.

Gojek

Senior Design Manager

Senior Designer > Design Manager > Senior Design Manager

Dec 2017 - Jan 2022

- Led the Android redesign of GoBiz, transitioning it from a restaurant management tool to a scalable multi-segment merchant platform; GoBiz became the first app in the Gojek ecosystem to be fully rebuilt on Gojek's Asphalt 1.0 design system.
- Led design on overhauling existing information architecture across multiple merchant apps serving 1.5M+ merchants.

- Led design efforts on GoBiz's regional expansion (Thailand, Vietnam, Singapore)
- Took ownership and structured the Merchant Design organization by defining clear ownership across product verticals and instituting governance rituals (1:1s, growth plans, design critiques, retros, and informal water-cooler sessions) to improve design quality, team health, and psychological safety
- Introduced structured design documentation and cross-functional alignment practices as the merchant org expanded

Practo

Senior Product Designer

Design Intern > Product Designer > Senior Product Designer

April 2014 - Nov 2017

- Redesigned the Practo Ray app for iOS and Android (Material Design)
- Worked directly with engineering to merge multiple doctor-facing apps (Practo Profile, Practo Ray, and Qikwell Pulse) into a unified platform (Practo Partner app)
- Designed Practo Ray for paediatricians, a web-based SaaS product supporting clinical workflows as part of my Masters Capstone Project

TCS

Assistant Systems Engineer

Nov 2010 - May 2012

- Started my career working in Java and middleware applications before moving on to HTML/CSS/Javascript frameworks(extJS) and designing websites with Photoshop and Illustrator.

EDUCATION

Masters in Design

National Institute of Design ▪ Information and Interface Design ▪ 2012 - 2015

Bachelors of Engineering

NMAMIT (VTU) ▪ Electronics and Communications ▪ 2006 - 2010

INTERESTS

Reading non-fiction and contemporary fiction, Brewing Coffee, Collecting zines,
Drawing and Writing travelogues
